Mr. Joshua Lederberg
Osborn Botanical Laboratory
Yale University

Dear Mr. Lederberg:

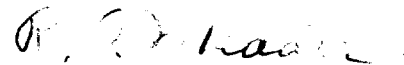

I have just returned from attending the Growth Symposium at Storrs to find your letter of August 26 reporting your decision to accept the appointment at the University of Wisconsin. I should like to offer my congratulations on this fine opportunity and my best wishes for success in realizing to the full the privileges of collaborative investigation available to you. I am sure that the Board of Scientific Advisers and the Board of Managers will wish to join in these good wishes.

As you suggest, the fellowship awarded to you for 1947-48 will be cancelled.

I regret that I will not be in New Haven when you expect to call on me. It may be that Dr. Winternitz will be back from St. Louis by that time and I believe he would be happy to see you if you will call him to make an appointment.

I expect to be in Madison September 10-13 attending the Symposium on the Use of Isotopes in Biology and Medicine. If you should reach Madison before I leave there, it would be a pleasure to talk with you further about your plans.

Sincerely yours,

R. G. Meader
